AIM Interface

The AIM Interface gives the possibility to connect an AIM MXL Dashboard to the ProECU-K.
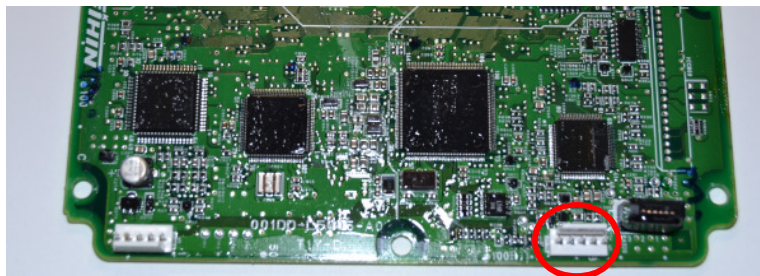

to ECU Expansion Port

to AIM Dashboard (RS232)
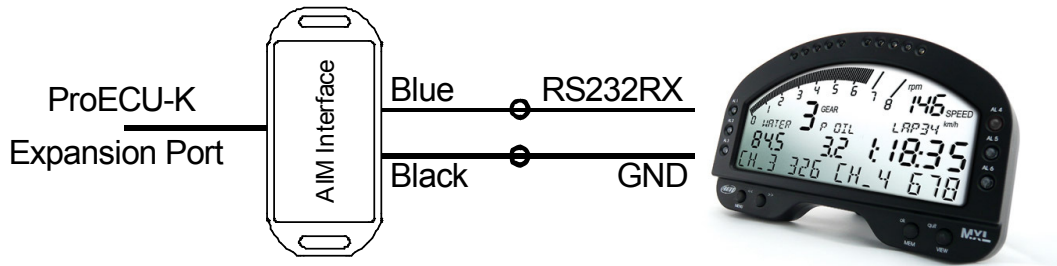

Connection to the ECU

Connect the AIM Interface to the ECUs or Expansion Boxs Expansion Port.

Expansion Port

Ver. 1.0 January 2015

1

Connection to Dashboard

Our Interface has a standard RS232 Output which will connect direct to the Displays RS232RX.

Configuration

For the Communication Setting in AIM Racestudio Software, choose as ECU Manufacturer "Hondata" and as ECU Model select "KPRO". Our Interface sends out a compatible Data Stream.
